

On some of the machines in the district, you will see these two buttons. The Delicious Checkerboard will take you to Delicious and the Tag button will allow you to tag a site.

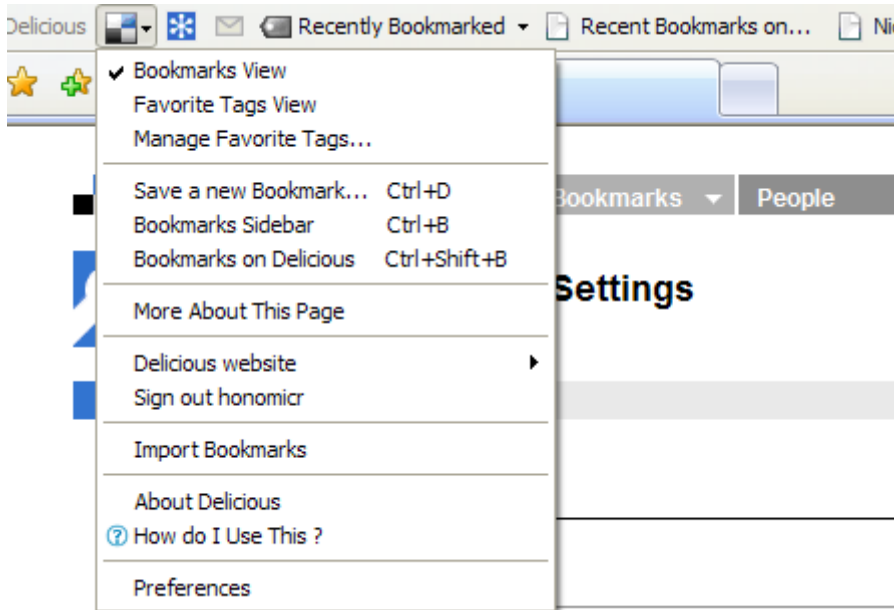

By clicking on the down arrow next to the Delicious checkerboard you can access some different areas. This is essentially all the menu items you can do on the Delicious page. When you click on one of them it will take you to the Delicious site where you can access the information.

Delicious button.

Delicious Network Button

Recently bookmarked items

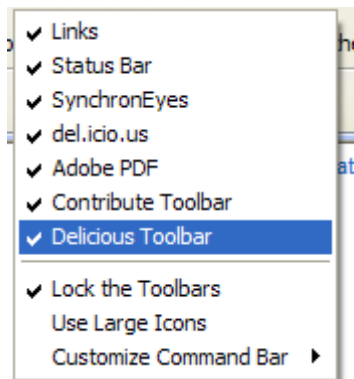

Bookmark view will show you your recent bookmarks at the top of your browser. When you click on a bookmark it will open in a new tab.

Favorite tag view will remove your recently bookmarks from the top of your browser

Bookmarks Sidebar will bring up all your bookmarks on the side of your browser. You can sort and search them without going to your Delicious site.

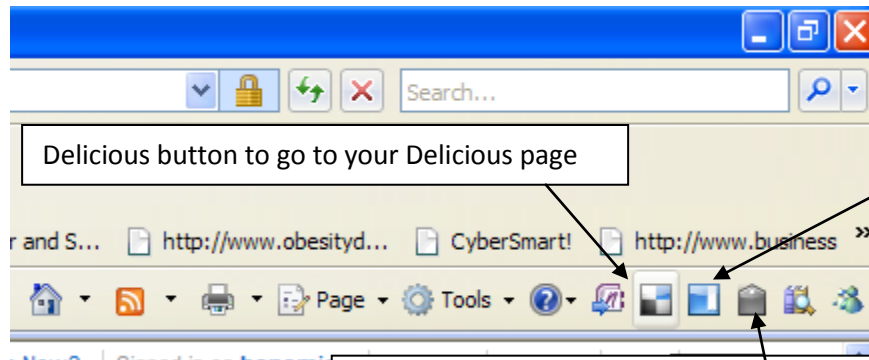

From this menu you can sign in or out at anytime.

Preferences will allow you to change some of your shortcuts within Delicious.

If you right click on a toolbar and uncheck Delicious Toolbar. It will hide the items that were listed above.

On the right hand side of your browser you probably see buttons that look similar to the following.

Delicious button to go to your Delicious page

Bookmark button opens up your bookmark sidebar.

Tag button – use this to tag a site
